

Glebelands Primary School

29th September 2004

ServiceMaster

To whom it may concern:

As headteacher at Glebelands Primary School I was looking, a year ago, for an outside contractor to take on the cleaning of my school. My governors and I chose ServiceMaster and we have been impressed with the level of service that we have received over the last year.

The company have provided us with three cleaners on a daily basis through the school year to clean classrooms, corridors and toilet areas. They have been reliable, always providing relief staff if our regular cleaners are unable to come in. I meet with a supervisor once a month to review the work which has always been very pleasing. I also know that I can contact the company at any time if I have a problem or question that needs answering.

Over the summer holidays the school was without a premises officer and ServiceMaster was able to provide cleaners for a deep clean and a wonderful floor polish.

I have been really impressed by the personal interest and attention to detail shown by everyone I have dealt with and we are very happy with the quality of work they are doing.
